REDUCED PREMIUMS.—Assurances may be effected upon payment of four-fifths of the rates chargeable according to the Society's Table, subject to certain conditions fully set forth and explained in the Prospectus.

CLAIMS.—The total amount of Claims paid upon death from the commencement of the Society to 1st June, 1873, was £1,050,871.

BONUS.—The whole available Bonus is the sole property of Life Assurers; no part whatever is taken from it to be shared amongst proprietors. The NEW BUSINESS of 1872 comprised Insurances for £340,363; and the Premiums received thereon amounted to £13,596 16s. 2d.

The NET INCOME of the year was £165,578 17s. 7d., and the OUTGOINGS £88,630 10s. 5d. The Funds were increased by the difference—£75,948 7s. 2d.—and amounted, at the end of the year, to £952,733 9s. 7d.

The realized PROFITS are ascertained every Five Years; and NINETENTHS of the whole are divided among the Assured. As considerably more than one-tenth of the Profits is derived from Policies which do not participate in the Profits, it will be seen that *the Assured have greater advantages in this Society than if they formed a Mutual Insurance Company*, dividing among themselves the whole of the Profits derived from their own Policies.

The PREMIUMS are calculated for every half-year of age.

The conditions of the Policies allow persons whose lives are insured to reside or travel in any part of the world distant more than 33° from the Equator.

Policies in the hands of third parties are not vitiated by suicide or by the life assured transgressing the stipulated limits.

PRINTED FORMS of notice of assignment furnished when desired.

The Business of the Society includes the Purchase and the granting of Loans upon the security of Life Interests and Reversions; also the granting of immediate Annuities.

The usual Commission allowed to Solicitors on all Policies introduced by them.

The Annual Reports of the Directors are regularly printed, with full accounts of the Receipts and Expenditure, and may be obtained by written for personal application at the Office.

The Accumulated Fund of this Society (exceeding £600,000) is of unusual magnitude in proportion to its liabilities.

All the Profits belong to the Assured, and are applied to the gradual reduction and ultimate extinction of their premiums; a result which may be expected to occur, in the average of cases, in about twenty years from the date of the policy.

Funds for the Education of Children and for their Establishment in Life may be provided on unusually favourable terms, on a new system lately introduced by this Society, based upon tables of mortality specially constructed for the purpose.

Persons residing in the Country can effect Assurances without personal attendance in London.
